

THE HICKMAN COURIER.

George Warren,
HICKMAN, KY.

FRIDAY, NOV. 18, 1898.

Our Loss and Gains.

In the recent election the Democrats made heavy gains in the Eastern States and made experiments in the West. In the East the free silver issue was ignored, and in the West it was given prominence. Who can say what will be the issue in the Presidential campaign of 1899? No one may read the political events of the next two years in this rapidly moving, great big country of ours.

Republicans Will Control.

When the new Congress assembles the Republicans will be in full control of every department of the Government—the Senate, House, and the Presidency. Last week the National Democratic Convention, after a full re-living would give the Democrats a majority in the House, but the reverse proves true. Whether it be for the best interest of the country or not, the result is certain, it is that the new Congress will be with the Republicans. They are responsible for the future. If they make and execute good laws and policies, they deserve the praise; if bad, then the censure. Whether of omission or commission, they are responsible.

Negro Officers in the North.

Ninety per cent of the white people in the South want peaceful relations with the colored people, and believe the same percentage of colored people want peace and friendship. But, time and time again, it has been demonstrated that the white people will not submit to negro rule. People may reason as to the right or wrong of this as they may, but it is none the less a fact. And it does not seem to be conditions in the North, notably in Illinois, that the Northern whites are any different to their Southern white brothers. President McKinley has appointed many negro officers in the South, which has been the leading cause to racial trouble, and if he had made negro appointments in Illinois and New England as he was in the Carolinas, everything indicates that the same results would have followed.

Lessons of the Election.

It is that campaign managers don't know in advance the result of an election, though they assume to know.

2nd. The Republicans met with losses in their strongestholds in the Eastern States, and the Democrats in the West, where Democratic was strength to offset the loss of New York and New Jersey.

3rd. The Democrats gained 35 Congressmen, surely, in the East, enough to more than overcome the Republican majority in Congress, but they lost out in the West.

4th. The Populists lost heavily all over the country, their strength in Congress being cut down from 27 to 7.

5th. The next Senate, from March, 1899, will be 53 Republican and 37 in opposition. There will be a clear majority of seven against Free Silver, and this can not be materially changed for 4 or 5 years.

Respect the Courts.

There is nothing so sure as derides the very foundations of civil liberty as for the people to be educated to disregard the integrity of our highest courts. It is no merece of our institutions, for the people, individually or in political bodies, are as liable to the same contempt as the courts, that the courts have erred, except when such confined errors come from corruption. The Democratic party in 1896 erred the Federal Court, something that had been done repeatedly before, but that it had created a howl all over the country, and was exposed as a snare, &c., try to incite animosity toward corporations, railroads, &c. Last week one of the Federal courts handed down a decision holding that railroads may not combine to fix rates, &c. Here then is the court itself, supporting the Democratic anti-corporation. The Supreme Court of the United States may approve an income tax. Who knows? The courts should be respected, and upheld by all the powers of the Government, but the judges are but human, and their decisions cannot escape error.

How W. H. Bixby traveled two thousand miles to go to roto, and yet there were several hundred men in this country who made the walk ring with their abouts in 1896 who neglected to go one or two thousand miles the same.

These men went do for long night strong pull, and a pull stronger,

RACE WARS.

Illinois, North Carolina, The Philippines.

Never in the history of the world have two or more primitive races of mankind lived together in such a state of peace and harmony. Whenever they have been thrown together by the mutations of governments, strife and war always result.

The persecution of the Jews in the continental governments of Europe is a well known fact, but the same is true of the negro in the United States. And so is the Asiatic and African possession of England and the other European governments. They hold these possessions but it is at the price of untold millions of money and blood.

The Caucasian, right or wrong, always seems to dominate and, in this end does control. The Caucasian believes all other races inferior, and therefore in the name of justice that he has a right to rule.

— in Illinois and North Carolina are conspiracies. Some years ago the North Carolina troubles would have been attributed to Southern prejudice, but how can that explain the attitude of the State of Illinois, a people who contributed freely for the freedom of the negro?

And now comes the acquisition of the Philippine Islands, embracing a population of eight or ten million Malays and other Asiatics—a population as repugnant to the Caucasian as the negro. How are we to get with them? They have always been friendly, and there is little hope to expect much better relations toward the United States.

The future is evidently full of race troubles for the United States.

The World in War.

If the newspaper of Continental Europe is to be believed, the entire world is likely to be involved in war. It is, perhaps, true that international complications are creating to disturb the peace of the world, but the globe, in the future, as in the past, must of this threatened trouble be between the nations will be bridged over. The European newspapers, like American newspapers, catch the news and drift of events, but make no statement and talk from fear of what may be said of "expansionism" in the politics of the world is the case, more than anything else, of the war probabilities, because all know that one country "expands" it must be at the expense of some other country. The idea possesses a certain logic, and degree, all the European nations, especially to Great Britain, because Great Britain is the most powerful nation in the world, and France in one round and the United States in the other.

White Troubles Fomented.

The negroes, who have been seducing class, and the poor throughout the States of Georgia, Alabama, and the Carolinas, which can have no other effect, than to incite strife and bloodshed, and to be described by human language. These "circles" urge the negroes to actual outrage and murder. It is hardly conceivable that any man, white or black, could stand up to such a plot, but too many thousands of them are in existence to deny the facts. The bulk and body of the whites and negroes in the South can live harmoniously and peacefully in the same country, because, for they have long had the necessity of agreeing to disagree on social matters, and also their mutual duties as heirs toward each other along the lines of their agreement. There is rarely any bloody trouble between the negroes and the whites, because all know that this is the true, why the colored men don't learn and remember these terrible facts and dangers, and that they cease to be used as a tool for the office-holders, who always abuse them when the fight is on.

In the Ninth Kentucky District Court, by the Supreme Court of the United States may approve an income tax. Who knows? The courts should be respected, and upheld by all the powers of the Government, but the judges are but human, and their decisions cannot escape error.

In the Ninth Kentucky District Court, by the Supreme Court of the United States may approve an income tax. Who knows? The courts should be respected, and upheld by all the powers of the Government, but the judges are but human, and their decisions cannot escape error.

GO. ROB TAYLOR has almost entirely recovered his health and will return to his home in the West, as soon as his term expires. He says he is done with politics for ever.

In the Ninth Kentucky District Court, by the Supreme Court of the United States may approve an income tax. Who knows? The courts should be respected, and upheld by all the powers of the Government, but the judges are but human, and their decisions cannot escape error.

New Goods,New Goods!

YOU ought to hear how the women are talking about OUR Store. The men are talking too. They all agree that I have a Fine, Up-to-date Stock of Goods, in all lines, ...

THE REASON there is so much talk about Our Store is due to THREE RULES:

- 1st. The Style and Quality of My Goods.
- 2nd. Our Advertising Prices—astonishingly LOW. People say they are Very Cheap.
- 3rd. Our Guarantee of Satisfaction. We live up to Our Words, and will not Misrepresent the Goods.

My Stock is Complete.

In Dry Goods, Clothing, Shoes, Hats, Caps, Groceries, Hardware, Quisenware, Doors, Seats, Lumber, Etc.

H. C. Amberg.

BEAT THE DISARMAMENT PLAN.

Out of Politics.

Now that our war is over and no immediate danger of any other immediately threatening our coastlines, the voice of reason and Nikita Tamm, has evolved a device dealing device by which the nation operating it can deal out death and destruction by wholesale, and kill every man within sight, and burn every building, fort, ship and city to kingdom come.

Mr. Tamm's invention consists of devices for propelling and protecting from the air currents of electricity of enormous veloci- ties which will catch out for miles and make it possible to move even the most powerful fort by hitting it with a single balloon or a wagon with his special mechanical device. Mr. Tamm's invention consists of a body of men who will be sent over to the world to bring the will to be bridged over.

What the Kentucky court of appeals will do with the Goebel's appeal law now is not yet known. It is, however, understood that it will be referred to the committee of the term in Congress, to report back at next session.

THE APPELLATE COURT.

What the Kentucky court of appeals will do with the Goebel's appeal law now is not yet known. It is, however, understood that it will be referred to the committee of the term in Congress, to report back at next session.

THE KLYONDE HUMOR.

Now that the Klyonde country is again closed for the winter it is seen that the sensational stories of the Klyonde country have not been annihilated, and that there is nothing unusual in the goings on there.

It is not but that a large amount of gold has been taken in the Klyonde country.

There are doubtless many rich claims.

But it will take time and effort to get the gold out.

It is not the first in the Klyonde country is just like all other others.

THE GIGANTIC SCHEME.

Most of our big stories these days come by the way of Paris. That city is now the center of the Philippine discussion.

The last news from Paris is that the United States has made an extraordinary proposition from a political and financial point of view.

The Spanish and American missions have had under consideration an extraordinary proposition from a political and financial point of view.
